BOOK OF STANDARDS FOR COMMUNITY LIVING

THE ASSOCIATION

Introduction

The community of West Lake is a townhome community that will be comprised of 220 Homes. The Developer subjected West Lake to the covenants, conditions and restrictions contained in the Declaration and other documents.

In order to preserve, protect and enhance the property values of those who purchase homes within the community of West Lake, the Townhomes of West Lake Community Association (Association) was created. All Owners of property within the West Lake community are Members of the Association. This Membership includes certain mandatory obligations, financial responsibilities and a commitment to abide by the deed (use) restrictions and rules of the Association.

The purpose of this Book of Standards is to provide an explanation of the Association's Governing Documents and to give the Members an overview of how the Association functions in an easily understood format. This book will review the rights and obligations of Members and leaders of the Association and present a compilation of the Association's adopted community standards, policies, rules and regulations.

Mission of the Townhomes of West Lake Community Association

- To maintain, protect and enhance the value of the homes and common property within West Lake.
- To foster a sense of community among the Members.
- To pursue excellence in all that the Association does.
- To build a community that is based upon principles, values and respect for one another.
- To record and manage this vision through a system of governance that respects this perspective.

The Governing Documents

Anyone who purchases a home in West Lake should obtain a copy of the Community Declaration for Townhomes of West Lake (herein referred to as "Declaration" or "CCR's"), The Articles of Incorporation ("Articles"), The By-laws ("By-laws") and all amendments that may have been made to each of these documents. All of these documents have been recorded in the public records of Hillsborough County. If you did not receive these documents, notify your title company and request that they provide them

to you as required by Florida Statute. Copies may be obtained from the management company; however, you may be charged a copy fee for the document package. Documents may also be viewed and/or downloaded from the Hillsborough County Clerk of Court web site. Following is an overview and hierarchy of the governing documents specific to the Townhomes of West Lake Community Association:

Florida Statutes, Chapter 720

This Chapter regulates Homeowners Associations like West Lake and takes precedence over the West Lake documents listed below. Anytime that there is a discrepancy between this statute and the West Lake documents, the statute will prevail.

Community Declaration for Townhomes of West Lake (the “CCRs”)

The CCR’s are recorded in the public records of Hillsborough County. They establish a contract between the Association and the property owners and create obligations which are binding upon the Association and all present and future owners of property within West Lake. The CCR’s contain the plan of development, the method of operation and the rights and responsibilities of the Association and the Owners of property within the Association.

Articles of Incorporation

Filed with the Florida Secretary of State and as an exhibit to the CCR’s, the Articles establish the Association, as a not-for-profit corporation under Florida law.

By-Laws

Details how the Association’s internal affairs will be conducted. Included in this document are the requirements for noticing and conducting meetings, voting rights of Members, elections procedures, and job descriptions for officers and committees. This is recorded as an exhibit to the CCR’s.

Amendments or Supplements

These are recorded at some point after the CCR’s are recorded and may add land or impose additional obligations or restrictions on the property. Amendments may be made to the CCR’s, Articles and By-laws by the Developer until such time as the Association is transitioned to homeowner control or they may later be amended by a vote of the Membership as outlined in the CCR’s, Articles and By-laws

Community Standards

The West Lake CCR’s require that standards and guidelines for improvements and modifications to the exterior of a home (including structures and landscaping) be developed. The Architectural Guidelines were created jointly by the Board of Directors and the Architectural Control Committee (“ACC”). These can be amended by the Board of Directors at the recommendation of the ACC.

Rules and Regulations

These are adopted by the Board of Directors to govern the use of property, activities and conduct. An example is Parking Rules.

Board Resolutions

Resolutions are adopted by the Board of Directors to establish rules, policies, and procedures for internal governance and Association activities, and to regulate operation and use of Common Property.

The Board of Directors

The governing authority for the Association is the Board of Directors ("Board"). The Board is established according to Section 4 of the By-Laws.

The Board of Directors is responsible for the administration of the Association. They have the authority to make and amend rules, adopt policy, adopt budgets, assess and collect assessments, hire and fire personnel, appoint committees, purchase insurance and enter into contracts on behalf of the Association. The Board is also responsible for enforcing the CCR's and all rules and policies of the Association. Board Members must act within the scope of their authority and perform their duties with care and diligence when acting for the community. The Board may delegate some duties to the community manager, an employee or a committee but ultimately the Board is responsible for all decision making. Refer to Section 6 of the By-Laws for additional information on the Powers and Duties of the Board.

The Committees [See Declaration Section 9.1]

The Board of Directors has the authority to create committees as it deems appropriate and to assign each committee with a specific task. Committees work in an advisory capacity to the Board. They do not have the authority to commit the Board to an expense or required action. Committee members are appointed by and serve at the pleasure of the Board. Committee members may be removed from their duties for failure to perform within the scope of the committee's boundaries or for failure to maintain Member in Good Standing status. Current committees are the Architectural Control Committee (ACC), which consists of Board members, the Covenants Enforcement Committee (CEC), Community Spirit Committee, and the Grounds Committee.

Meetings

The Annual Membership meeting is held each year. It is important that all Owners complete and mail in their proxy to the management company in order to be counted toward the quorum requirement. A proxy is a written instrument that allows you to be counted in attendance for the meeting and appoints another person to cast your vote on any voting matter presented to the Membership. Any Owner who sends in a proxy and then attends the meeting can request his proxy be returned thereby casting his own votes on all

business matters. At a General Membership meeting, Members can make motions and cast votes on all business matters listed on the agenda.

Board of Directors meetings are conducted as needed. A majority of the Board Members must be present to constitute a quorum and to conduct business. Directors may attend meetings via telephone, real-time videoconferencing or similar real-time electronic or video communication. All Board meetings are open to the general Membership to attend; however, Members may not attend Board meetings via telephone, real-time videoconferencing, or similar real-time electronic or video communication. See By-Laws Section 3.5.

Notice of all Board meetings must be given to Members forty-eight (48) hours in advance of the meeting. Any meeting at which the Board will adopt the budget, approve assessments or adopt rules regarding parcel (Lot) use requires a fourteen (14) day notification. All Board meetings are open to the general Membership to attend; however, motions and votes are made by the Board Members only. Members may speak to any agenda item during an open discussion period at the beginning of the meeting. If a Member has a business item that they would like to be addressed by the Board, they may contact the management company to request that the item be placed on the agenda. Back up information about the requested agenda item should be made available to the Board Members prior to the meeting and the Member requesting the agenda item should be prepared to address the Board at the meeting.

Committee meetings may be held monthly or on an as needed basis. Members are encouraged to volunteer to serve on committees and are welcome to attend meetings.

Budget and Finances

The Board of Directors is responsible for creating and adopting the annual budget for the Association.

The Board is responsible for the collection of each Owner's assessments according to the collection policy defined in the governing documents.

Managing the Association

As noted above, the Board is responsible for all decision making for the Association but can delegate some duties to others. A Community Management company has been contracted by the Board to assist in implementing the decisions made by the Board. The manager reports to the President of the Board. The Management Company is responsible for overseeing the day to day business of the Association and for implementing the decisions made by the Board. The Management Company will work to assist all residents of West Lake with their Association related questions and business; however, the Management Company takes direction only from the President of the Board.

Association vs. Owner Responsibility for Maintenance

The Townhomes of West Lake Community Association was formed under Chapter 720, Florida Statutes, as a homeowner's association. Each Owner of a town home has purchased that Home "fee simple", meaning that they own the building and the ground within the boundaries of the Lot – just as if it were a single family "unattached" home. Since townhomes are attached to other units, they share the roof and at least one common wall with another unit. Because of this building arrangement, special maintenance issues that are shared by more than one Owner exist. In order to maintain uniformity in the maintenance of the building and landscaping, the CCR's address specific maintenance issues and assign responsibility. Below is a synopsis of the responsibilities assigned to the West Lake Townhome Association and those maintenance items that are not assigned to the Association but are the responsibility of the individual homeowner. This is a synopsis only and is not represented to be a complete itemization of responsibilities. Homeowners are urged to read the CCR's for a complete understanding of the assignment of responsibilities. See Declaration Sections 10 and 11 for additional information.

Insurance

The Association is responsible for insuring the common areas only. Each Owner must purchase Homeowner's Insurance in an amount to cover the cost of reconstruction of the Home in case of damage to the Home. On an annual basis or upon request by the Association, the Owner will provide a Certificate of Insurance to the Association's managing agent. Failure to provide a Certificate of Insurance within thirty (30) days of request by the Association will be considered a non-compliance matter and Owner may be fined per the Covenant's Enforcement Policy (see Policy section of this document).

ARCHITECTURAL GUIDELINES, STANDARDS & CRITERIA

West Lake was developed with the intent that Homes harmonize with each other and present a pleasing and consistent style. The concept of a town home community is to have exterior uniformity in buildings and landscaping. The following guidelines and standards have been designed to provide homeowners an opportunity to create an indi-

vidual character for their home without changing the conceptual design of the community.

These Architectural Guidelines are supplemental Guidelines for the recorded Declaration for West Lake. Additional requirements may be contained in the recorded documents. Applicants are encouraged to review the Covenants in addition to these Guidelines prior to submitting an Alteration Application.

Introduction [See Declaration Section 19]

The intent of the contents of this guide, as well as the existence of the Architectural Control Committee (ACC), is to provide the guidelines and design standards required for maintaining an aesthetically pleasing community. Adhering to these guidelines is beneficial for all involved in that they are meant to protect the investment of the homeowners, as well as portray a quality community of well-planned homes constructed with long lasting materials maintaining high construction standards.

In conjunction with the recorded Documents for Townhomes of West Lake Community Association, These guidelines and design standards are binding on all parties having interest in any portion of West Lake, and each homeowner is required to comply with the requirements as set forth. Any failure to comply with these requirements will be subject to remedies provided for in the recorded documents.

The architectural review process has been established to maintain the integrity of the architectural and design character of West Lake. To this end, the Architectural Control Committee (ACC) will review all proposed additions, improvements or alterations on homes for conformity with the Architectural Guidelines. Section 19 of the Declaration sets forth provisions with respect to the review process.

To the extent that any government ordinance, building code or regulation requires a more restrictive standard than that found in these Guidelines, the government standards shall prevail. To the extent that any government ordinance, building code or regulation is less restrictive than these Guidelines and any standards contained herein, or the Declaration, these Architectural Guidelines and the Declaration shall prevail.

Terms such as “good taste” and “sound design” are difficult to define and even more difficult to legislate. It is the intent of these Guidelines to encourage “good design” by showing examples of the desired result. Elements such as deed restrictions, appropriate attention to scale and/or proportion to the community should be considered with all requests.

Nothing contained in these Guidelines shall obligate any agency, governmental or otherwise, to approve plans submitted, nor shall the approval of the ACC be construed as meeting either the requirements of Hillsborough County or any governmental agency required for approval.

The ACC has the right to modify, revise, add, delete or make any changes to this manual by joint resolution with the Board of Directors.

Aspects and Objectives of Architectural Review

The Architectural Control Committee evaluates all properly completed Alteration applications. Decisions made by the ACC are not based on subjective elements, but on the following criteria:

Relation to the Natural Environment: To prevent the unnecessary removal, destruction or blighting of the natural landscape or of the existing man-made environment. See Declaration Section 25 regarding removal of exotic or nuisance vegetation.

Conformance with Declaration and Architectural Guidelines: All applications are reviewed to confirm the project is in conformance with the Declaration and approved Site Standards.

Design Compatibility: Compatibility is defined as similarity in architectural style, quality of workmanship, and use of similar materials, colors and construction details.

Location and Impact on Neighborhood: The proposed alteration shall relate favorably to the landscape, the existing structure, the surrounding homes and the neighborhood as a whole.

Materials: Continuity is established by the use of the same materials and color palette as was used in the original construction.

Workmanship: The quality of work shall be equal to or better than the surrounding area.

Validity of Concept: The basic concept shall be sound and appropriate to its surroundings.

Non-Liability for Approval of Plans

The Declaration (CCR's) Section 19.19 contains a disclaimer which relieves the Declarant, the Community Association and the Architectural Control Committee of liability or responsibility for the approval of plans and the specifications contained in any request by an Owner. Prior to submitting plans or information for review you should read and understand this disclaimer. Certain additions, alterations and renovations may void any existing warranties.

8. It is the ACC's goal to approve all requests in an expedient fashion.
9. For the purpose of a rapid response it is required that each form is limited to one request. The more detail provided with the submittal, the quicker a response may be expected.
10. In the case of an incomplete application or the request by the ACC for more information, the applicant will have 15 days to comply with the request. Failure to comply within the 15 days will result in the need for a new application to be submitted.

Step 2 - Submission of Plans to the Building Department

1. Following the approval of Step 1, the Owner may submit their plans to the Building Department or the required agencies that have jurisdiction for the required permits that may be needed for the modification project. Changes required by the said agencies must be re-approved by the ACC.
2. Hillsborough County Permits

- a. Hillsborough County requires permits for many types of work done, both inside and outside your house. For further information, contact Hillsborough County at (813) 272 - 5600.
- b. Approval for installation by the ACC of any project does not negate the homeowner's responsibility to comply with all terms and conditions of any municipal permit, or existing codes required for the project, which the owner is responsible for obtaining.

Step 3 - Construction Commencement

1. Upon completion of Step 2, a copy of the building permit must be submitted to the ACC prior to the Owner beginning construction.

3. Any modification to the original application for any reason must also be re-approved.
4. Property owner and his/her contractor are responsible for obtaining and complying with all building permits, building codes and setbacks.
5. Access to Common Areas:

 - ii. Prohibiting the consumption of alcoholic beverages, illegal drugs or other intoxicants that could hamper the safety or well-being of other personnel on the site.
 - iii. Any contractor or installer, other than the record titleholder of the Lot, shall provide the Association with an insurance certificate listing the Association as a name insured prior to commencing work. Insurance shall meet the following minimum limits: Contractor's General Liability (including completed operations): statutory minimum amount. Worker's Compensation: statutory minimum amount. In the absence of statutory minimum amounts, these amounts may be established by the Board.

Step 4 - Final Inspection

1. The ACC shall have the right to enter upon and inspect any property at any time before, during, or after the completion of work for which approval has been granted.
2. Upon completion of the improvement the Owner shall give notice to the ACC. At this time it will be reviewed for compliance with these Guidelines and the approved Alteration Application.

3. Owner shall make certain any damage to streets, curbs, drainage inlets, sidewalks, street signs, walls, community signage, landscaping, irrigation, etc. is repaired or the damage will be repaired by the Association and such costs will be charged to the Owner.
4. Application approvals are valid for a period of six (6) months and a new Alteration Application must be submitted after that time has elapsed if the approved project has not commenced.

Express Approval

The following items may be approved outside of the Committee meeting unless the Owner receives a notice of disapproval within ten (10) days after submitting the Alteration Application with all applicable documentation:

1. Re-surface existing driveways and sidewalks in the identical color/material previously approved by the ACC.
2. Replace existing screening with identical screening materials previously approved by the ACC.
3. Replace existing exterior doors and garage doors with identical style exterior doors previously approved by the ACC.

All references in the paragraph to “identical” shall mean that such item shall be replaced with an item that is identical in all respects to the existing item (*i.e.*, the identical style, texture, size, color, type, etc.).

Change or Modifications Made Without Approval [See Declaration Sections 19.14 and 20.2]

Owners making changes in advance of receiving approval from the ACC will receive a letter from the Community Manager. Owner will have fifteen (15) days from receipt of the letter to submit a completed Alteration Application or remove the change. The Alteration Application is not considered complete unless it is accompanied by the applicable processing fees, materials list, final survey and all those required supporting documents referenced earlier in this section.

Failure to comply with this request could result in monetary fines and legal action. All costs associated with gaining compliance shall be charged to the Owner’s account.

Reconstruction [See Declaration Section 14.2.2]

In the event that a residential structure or any part thereof is destroyed by casualty or natural disaster, the Owner must notify the ACC and commence reconstruction within 30 days of receipt of insurance proceeds. The ACC will make every effort to accommodate the Owner in the application process in order to repair or rebuild in a timely manner.

Sale of Property

Owners who offer their house for sale shall first advise the Community Manager and bring their house and property into full compliance with all provisions and requirements of the latest edition and revisions of these Guidelines. POLICY AND PROCEDURES

Introduction to Policy Adoption

The Association is administered by its Board of Directors, which is both empowered and responsible for establishing policies and standards for the Association that contribute to efficient governance. The individuals elected to serve on the Board have a fiduciary responsibility to make decisions that, in their opinion, serves the best interest of the community and supports the purposes of the Association, as defined in the Declaration.

Members have certain voting rights after turnover from developer control such as electing directors to the board or voting them off the board; and voting on amendments to the Governing Documents. Beyond that, the powers of the Association are given to the Board of Directors. Given that structure, it is more easily understood why the policy-making process is primarily handled within the Board and not as a community-wide process.

Some policies are required by State statute while other policies come about as a result of a need for process, consistency, broadened application of the Governing Documents, or remedy of a situation that is or may negatively impact the community.

Operational Policies and Procedures

Matters of day-to-day administration are generally tasked to the Management Company. Certain procedures are discussed by the Board and adopted into a Policy Resolution as a means of giving Management the direction and authority to act on the Board's guidance as "standard operating procedure." Matters that are procedural and relate directly to the services of Management include (but are not limited to):

1. Collection of unpaid assessments
2. Enforcement of covenants
3. Inspection and copying of Association records by unit owners
4. Financial management, including investment of reservefunds
5. Volunteer Code of Ethics
6. Conduct of Meetings
7. Adoption and amendment of policies, procedures and rules.

These procedural policies are established by completing a thorough review of the Association's Governing Documents and then adding, as determined appropriate by the

Board of Directors, any additional steps to more clearly define the process, as many times the Governing Documents are written in generalities, lacking specific details that would make a process complete.

Operational policies are typically drafted with direction received from the Management Company, based on their experience and expertise. Prior to the policy being finalized, it is reviewed by the Association's legal counsel to ensure that it complies with the governing documents and other governing authorities.

Operational policies may be amended as deemed necessary and/or appropriate by a majority vote of the Board of Directors.

Community Standards

Rules for the community, referred to as the "Community Standards," may be proposed by:

1. Recommendation by a Member;
2. Recommendation by a committee;
3. Recommendation by a board member or collectively by the board; or
4. Recommendation by management.

When a recommendation for a policy which establishes (or amends) a community standard is received, the Board of Directors shall discuss the merits of the proposed standard(s) at its regular board meeting, which is held in open session. The Board typically will not solicit input from the Members prior to voting on a matter such as this; however the Board may opt to obtain feedback from some or all of the Members prior to making a final decision.

Once a new standard (or amended standard) has been approved by the Board, it is documented for distribution to the membership. Such distribution may be done by electronic notice, written notice distributed by U.S. Mail, community newsletter, website, or new resident welcome packet.

Policies that have been adopted by the Board as of this edition of the Community Standards are included in the pages that follow.

ASSESSMENT COLLECTION POLICY [See Declaration Section 17]

1. **Due Dates.** The annual assessment as determined by the Association and allowed for in the Declaration, Articles of Incorporation and Bylaws ("the Documents") shall be due and payable in one or more installments, due on the first day of each year, quarter or month as approved by the Board of Directors. the month in which they are due are subject to late charges, interest and collection costs.

2. **Late Charges Imposed on Delinquent Assessments or Installments** [See Declaration Section 17.18]. Any Assessment not paid by the tenth (10th) day of the month in which it was due is subject to a late charge. The Association shall impose a \$25.00 late charge on the outstanding or past due balance. The late charge shall be the personal obligation of the Owner(s) of the Lot for which such assessment is unpaid. Late charges are charged on assessment installments and not on any other costs. All late charges shall be due and payable immediately, without notice.
4. **Interest Imposed on Delinquent Assessments or Installments.** Any Assessment not paid by the thirtieth (30th) day of the month in which it was due is subject to an interest charge. The Association shall impose 18% interest, per annum on the outstanding or past due balance. Interest is added monthly at the rate of 1½% on any unpaid assessment amount. Interest is not added to late charges, collection costs, legal fees or any other type of charges except assessments. The interest shall be the personal obligation of the Owner(s) of the Lot for which such assessment or installment is unpaid.
5. **Collection Costs.** All costs and charges incurred by the Association shall become the personal obligation of the Owner(s) of the Lot for which such assessment or installment is unpaid. All late charges shall be due and payable immediately, without notice. This includes all letters required to be sent by Certified Mail which will be charged at a cost of \$10.00 per letter.
6. **Return Check Charges.** In addition to any and all charges imposed under the Documents, the Rules and Regulations of the Association, or this Resolution, the following applies to returned checks or other instruments irrespective of the reason for return:
 - a. A returned check charge in the amount charged to the Association by the bank plus any processing charges from the management company shall be assessed for any returned check irrespective of the reason for return. This charge is in addition to the late fee.

Owner's payments for a period of one (1) year, be made by certified check or money order.

- e. If after this one (1) year period, any checks or other instruments are returned unpaid by the bank, the Association may require that all of the Owner's future payments be made by certified check or money order.

7. **Collection from Tenants** [See Declaration Section 15.23]

In the instance where an Owner is delinquent in payment of assessments and there is a tenant residing in the Home, the Association may demand from the tenant payment to the Association of all future assessments. As long as the owner remains delinquent, future rent payments due to the Owner must be paid to the Association and shall be credited to the account of the Owner.

8. **Attorney Fees on Delinquent Accounts** [See Declaration Section 17.15]

9. **Application of Payments Made to the Association** [See Declaration Section 17.18]

10. **Member in Good Standing Status.** Any amounts owing for more than thirty (30) days, including late charges, collection costs, fines, and assessments shall result in the Member losing Good Standing Status. The Association may refuse to approve any Architectural Alteration Applications.

11. **Acceleration of Assessments** [See Declaration Section 17.17]

12. **Collection Letters.**

- a. After any Assessment or other charge due the Association becomes ten (10) days past due, the Association may cause, but shall not be required to send, a "late notice" to the owner who is delinquent in payment.
- b. If payment becomes thirty (30) days past due, the Association shall send a notice allowing the owner forty-five (45) days to make payment of all amounts due, including interest, late charges, attorney fees and any other costs associated with the preparation of the notice. The notice must be sent by registered or certified mail, return receipt requested, and by first class mail to the owner at their last address as reflected on the Association's roster, if the address is a United States address. If the address on the roster is different than the parcel address, then the notice must also be sent to the parcel address. If the address on the roster is not a United States address, then the notice will be sent to the out of country address and the parcel address by U.S. mail. Homeowners will be charged \$10.00 for each certified letter.

13. **Liens.** The Association may file a Notice of Lien against the property of any Owner in accordance with the terms and provisions of the Documents. A copy of the recorded Notice of Lien shall be mailed to the Owner and Mortgage Lender with a request that the lender send a letter to the delinquent owner advising the Owner of the lender's option to accelerate the mortgage debt. These actions are performed by the Association's attorney and the costs for these actions, which are usually several hundred dollars, are added to the lien amount.
14. **Referral of Delinquent Accounts to Attorneys.** See Declaration Section 17.18. The Association may, but shall not be required to refer delinquent accounts to its attorneys for collection. Upon referral to the attorneys, the attorneys shall take all appropriate action, including legal required notices, to collect the accounts referred. Once the Association has referred a delinquent account to its attorney for collection which includes a Notice of Lien being filed against a property, neither the Association nor its managing agent shall correspond with the owner concerning this matter nor accept payment from the Owner concerning the delinquency. The Association will pursue all remedies recommended by the attorney up to and including foreclosure.
15. **Referral of Delinquent Accounts to Collection Agencies.** The Association may, but shall not be required to refer delinquent accounts to one or more collection agencies for collection. Upon referral to a collection agency, the agency shall take all appropriate action to collect the accounts referred.
16. **The Association may, but is not required to, grant a waiver of any provision herein upon petition in writing by an owner showing a personal hardship.** Such relief granted an Owner shall be appropriately documented in the files with the name of the person or persons representing the Association granting the relief and the conditions of relief. In addition, the Association is hereby authorized to extend the time for the filing of liens and lawsuits, or to otherwise modify the procedures contained herein, as the Association shall deem appropriate under the circumstances.

COVENANTS' ENFORCEMENT GUIDELINES

Background:

Upon signing a contract to purchase a Home in West Lake, the buyer contractually agreed to abide by the governing documents for the Townhomes of West Lake Community Association, Inc. ("Association"). This contractual obligation applies to all Owners, tenants, guests and/or invitees. The governing documents include the Community Declaration, Articles of Incorporation and Bylaws for West Lake ("CCR's") which are recorded in the public records of Hillsborough County and any adopted rules and regulations.

Following are procedures to be followed for the failure by an Owner, their tenant, guest, etc. to abide by the CCR's and the Association's duly adopted rules and regulations [See Declaration Section 20].

Definitions

1. Member in Good Standing Status. An Owner who is not in violation of their contractual obligation with the Association either because of unpaid assessments or unresolved or repetitive violations. Please see Member in Good Standing Policy.
2. Notice. See Declaration Section 24.5. Any letter deposited in an official depository or collected by an authorized representative of the U.S. Postal Service which is addressed to the homeowner at the last known address provided to the Association and contains proper postage. Notice shall be deemed to be properly sent when mailed, postpaid, to the last known address at the time of such mailing.
3. Receipt of Notice. See Declaration Section 24.5. The date that Certified, Return Receipt letter is signed for, or the date that a Priority Letter with Delivery Confirmation is placed in your mailbox as confirmed by the U.S. Postal Service or three (3) business days following the postmarked date on any regular mail that satisfies the Notice requirements above. Failure to claim Certified, Return Receipt letters does not stop the process.
4. Sanctions. One or more of the following: costs relating to the violation, including letters, travel time and after hours' time, costs of lawn service, etc.; monetary fines; suspension of voting rights; suspension of amenity access and loss of Member in Good Standing Status.

Process [See Declaration Section 20.2]

1. Owner (and tenant if applicable) will receive a reminder notice from the Community Manager advising that a condition observed on the property is a violation of the CCR's or Rules and Regulations. The Owner will have fourteen (14) days to bring the violation into compliance.
2. Should Homeowner not comply within fourteen (14) day period:
 - a. If there is no Covenants Enforcement Committee, all violations not remedied within the fourteen (14) day period may be turned over to the Association's attorney to pursue compliance. Your Association's Documents provide that all costs associated with this process including legal fees may be charged to your account.
 - b. If the Covenants Enforcement Committee is in place, a second letter is sent (Certified, Return Receipt Requested). This letter notifies the homeowner that the violation has not been corrected as previously requested,

details the fine and/or suspension, and informs the homeowner that their violation will be reviewed at the next monthly meeting of the Covenant Enforcement Committee. Failure to claim the certified letter or attend the meeting does not stop the process. Homeowners are charged \$10.00 for each certified letter. Minutes of the Committee meeting shall contain a statement of the results of the hearing and if the sanction is confirmed or rejected.

- c. Manager sends a letter with decision of Committee action. If a fine has been levied, an invoice for fines and costs will be included which are payable to West Lake Homeowners Association, Inc. in five (5) days by separate check. See Declaration Section 20.6.4.
- d. If not paid in 30 days, Community Manager turns matter over to the Association's attorney who sends a final demand letter. The Owner shall be responsible for any and all reasonable attorney's fees incurred in forwarding demand letter(s) to Owner. The prevailing party shall be entitled to its reasonable attorney's fees resulting from the litigation of the matter.
- e. A fine of \$100 may be levied on the basis of each day of a continuing violation, except that no such fine shall exceed \$1,000.
- f. Daily fines will begin following receipt of notice and will continue until corrective action is taken, and the Community Manager receives written request to re-inspect the violation. Daily fines will cease when the Community Manager re-inspects the violation(s) and finds that the appropriate corrective action has been taken. Community Manager will issue a written approval to the Owner.
- g. Any Owner's account showing an unpaid fine amounting to \$1,000 or more may have a lien filed against the Lot and such lien will include the collection costs, legal fees and attorney charges associated with the collection process.
- h. Owners will be restored to a Good Standing Status when all good standing criteria have been met and the violation has been rectified. After reviewing the Owner's account, the Community Manager will issue a letter stating that "good standing" status has been restored.

Note: Fines that are levied do not include costs associated with the violation notification process. In addition, revocation of Member in Good Standing Status could result in additional penalties such as suspension of voting rights, suspension of use of amenities and/or refusal by Architectural Control Committee to review Alteration Applications.

Please note:

Committee will not discuss cases individually or outside of meetings.

Committee is made up of volunteer residents who are not members of the Board of Directors, employees of the Association or family members of members of the Board of Directors.

Fines go to Townhomes of West Lake Community Association, not the Community Management Company.

SECURITY CAMERA POLICY

Security cameras are installed in two areas of the community, near the entrance/exit gate and on the pool cabana. The limited purpose of the cameras is to have a video archive of these areas for access control, to deter vandalism and other types of behavior that could result in damage to the community, and to provide video evidence in the event that any incident occurs that, in the judgment of a Board member, could potentially result in some type of liability for the Association. However, the cameras are not monitored and the Association has no duty to review the video data, unless an incident has occurred or as requested by law enforcement. Therefore, there are specifically no guarantees, warranties, or any type of representations being made, either express or implied, with regard to protection, safety or security, to any resident, guest, invitee, licensee, or anyone else using the common areas of the community. These vehicles may not remain parked within West Lake overnight unless parked within the Home's garage. Bicycle racks, ski racks, surfboard racks or other racks for recreational or temporary vacation use are acceptable.
- The term commercial vehicle shall not be deemed to include recreational or utility vehicles (i.e. Broncos, Blazers, Explorers, etc.) up to 21'5" in length or clean "non-commercial" vehicles such as half ton to 1 ton pick-up trucks, vans, or cars if they are used by the resident on a daily basis for normal transportation and do not have lettering, graphics, beacon lights or other commercial insignia on them.

Maintenance

- Except in the garage of a Home, no maintenance or repair, except emergency repair (locksmith, tire replacement, broken window replacement) shall be made within West Lake nor shall vehicle repair equipment (mechanic lifts, transmission pullers, etc.) be stored or operated in the public view.

Registration

- Residents are required to register their vehicles with the Management Company by completing the Resident Parking Pass Request form and providing copies of valid registration and valid driver’s license. Tenants must also provide a copy of their active lease. When a lease from a new tenant is presented, all previous stickers associated with that unit will be voided. The Resident will attach the Vehicle Identification Sticker to the windshield on the lower front passenger side of each registered vehicle. Residents on end units are entitled up to four (4) Resident Parking Passes and Residents that own any other unit are entitled up to two (2) Resident Parking Passes.
- Within seven days after acquiring a new vehicle, the resident must contact the Management Company to register the new vehicle and to void the previous sticker if a registered vehicle was sold or traded.

- Vehicles attempting to use inactive stickers or faked stickers will be towed. Inactive stickers are those of former Residents or belong to cars that a Resident has sold, traded, donated or similarly disposed of.

Parking

- There are a limited number of parking spaces within West Lake and are shared resources for the community. The parking spaces are marked as 'Resident' or 'Guest'.

- No vehicles of any nature shall be parked or driven upon on any portion of West Lake or a lot except on the surfaced parking area thereof. This includes sidewalks and grass. Attempts to park diagonally or perpendicular to the streets cause damage to landscape, grass, sprinkler system components, drains, utility conduit, boxes and other systems. Residents may be charged for damage by leaving the paved areas of West Lake or a lot therein.
- Vehicles must be parked in the garage or driveway, with all wheels forward of the sidewalk, or in one of the common area spaces. Those units with driveways shorter than 17 feet may have a vehicle extend up to 17 feet from their garage door.
- No parking or standing of vehicles on streets, sidewalks, drainage areas between the sidewalk and pavement, or grass (this also includes the entire length of Fox Sparrow from the community to Sheldon Road) except for loading/unloading.
 - To facilitate students catching the school buses, parking on the south side of Fox Sparrow outside the gate is allowed, except for the last 150 feet prior to the intersection at Sheldon which is a No Parking zone. The area is well marked with No Parking signs. The double yellow line also provides a visual indication of the No Parking area. No cars are to be parked on the north side of the road. Failure to comply with this rule could result in a collision between cars turning from Sheldon onto Fox Sparrow and cars exiting Fox Sparrow that are forced to pass these parked cars in the middle of the road or in the wrong lane.
 - Delivery service providers making quick stops, service providers with vehicles that are oversized (cannot fit on a driveway AND are required to be parked near the home to provide service (pest control, carpet cleaning, etc.) will be exempt. spaces between sidewalks and pavement or blocking access to or egress from any driveway or parking space.

- Residents with a parking pass may park in any parking spot on a first-come, first serve basis. A Residence (Household Unit) may only use one Resident parking space at any given time.

- No car will be parked for more than 48 hours in either a 'Resident' or 'Guest' parking space.
- The space marked "Mail" is for use by the mail person when delivering mail, but residents may use it to pick up mail. There is a 5 minute time limit for use of this parking space.

Street Usage

- Streets within West Lake are owned by the Association. Street parking is prohibited. Street parking is dangerous to everyone because it can block access for emergency vehicles and hide pets and children at play from view of on-coming traffic thus creating the possibility for serious accidents.
- Mopeds, motorized scooters and mini cycles are prohibited from being operated on the sidewalks or streets within West Lake while under engine power. This guideline follows Florida Statute 322.03 which does not allow these vehicles to be operated on sidewalks and public streets.
- Streets are intended for the use of motor vehicles only. Playing games or congregating on the streets is not permitted. This creates a hazard for drivers and those who are using the streets inappropriately.

Towing

- Section 12.4.4 of the Declaration of Covenants grants the Association the right to tow vehicles that are parked in violation of the Declaration or rules and regulations of the Association. A regulation towing sign has been posted at the entrance of the community in compliance with Florida Statutes 715.
- Any car in violation of the parking guidelines will be subject to having their vehicle towed at their sole expense if the vehicle remains in violation for a period of twenty-four (24) hours

THE EMERGENCY PREPAREDNESS PLAN

Objectives:

The guidelines will establish an organization of leadership and assign responsibilities to various leadership positions. The guidelines include checklists to assist in implementing the emergency plan and a form to be completed that will list information for the communities' contacts.

The objectives of the plan are to:

1. Protect the well-being of the community's residents
2. Minimize the loss of community owned property
3. Facilitate timely recovery of community functions
4. Minimize the critical decisions to be made in a time of crisis.

Introduction:

The purpose of this Emergency Preparedness Plan is to create guidelines for use in an emergency situation that might occur. These guidelines are designed to assist in preparation, mitigation, response and recovery from an emergency event. It has been prepared from various sources of information and is by no means complete and/or comprehensive. These guidelines will evolve as the plans are reviewed and revised annually in order to integrate the best available information. The guidelines as presented cover the following situations:

1. Crime
2. Fire or Bomb Threat
3. Floods
4. Hazardous Materials
5. Hurricanes and Tropical Storms
6. Power Failures of Extended Lengths
7. Tornadoes and Storm Events

In an emergency where life or health is in danger, property is on fire, a bomb threat has been received or there is a hazardous material spill, calling 911 should always be the first action.

THE EMERGENCY RESPONSE TEAM AND EMERGENCY PROCEDURES MANUAL

The Community Manager and the Board of Directors and other persons as the Board may designate will be the Emergency Response Team (ERT). The ERT should review the community's emergency preparedness plan on an annual basis and adjust as needed. The manager should provide for any necessary training for the ERT to ensure that the team is knowledgeable of how to perform their duties.

An Emergency Procedures Manual for ERT members will be created. It will contain the following information:

1. The guidelines to be followed in the named emergencies
2. Assignment of duties in implementing the emergency plans. Any and all information the ERT or manager might need in the event an emergency occurs
3. An up-to-date list of vendors that might be needed for clean-up and repairs, to include contact information and services they provide Insurance information and contact information for agent
4. ERT member contact information
5. Emergency contact numbers (i.e. Sheriff's office, Fire Dept., etc.)
6. Steps for restoring the property after the emergency

Crime

1. The Association's annual budget should provide for funding of events and publications that will foster community awareness.
2. Residents should be encouraged to report any suspicious activity to the local law enforcement and to alert the ERT. Based upon the incident being reported, the ERT may communicate warnings web-site and/or e-mail alerts and/or published flyers or newsletters.
3. Respond to graffiti and vandalism quickly – do not let evidence linger in order to discourage others from copying the crime.

Fire and Bomb

Evacuations in response to fire and/or potential explosive devices will be at the direction of Fire and Rescue and Police staff (rescue responders) on the scene. If it is necessary for the residents to evacuate a home or the community, they will follow the instruction provided by the rescue responders. Once it is determined to be safe for residents to re-enter the community or home, they will be informed by the rescue responders on-site or by public announcement.

Protective measures that the ERT can perform are:

1. Professional inspections of fire hydrant equipment on an annual basis.
2. Ensure that ingress/egress access gates are functioning properly by having a professional perform routine inspections and preventative maintenance

Floods

The ERT should be aware of the community's location and determine if it lies within a flood zone. When public notice is given that there may be flooding in the area, the following actions should be taken:

1. Have all back-flow valves and storm drains checked and any blockage cleared
2. Identify any electrical equipment (i.e. motors, switches, etc.) that can be deactivated and relocate to a safer area
3. Residents should evacuate as directed by public officials notice
4. After the flood waters have receded:
5. Secure the site and survey the damage

6. Evaluate and address all safety hazards (i.e. live wires, leaking gas, flammable liquids, etc.)
7. Have electrician verify safety of electrical components before re-energizing
8. Once the site is deemed “safe”, have contractors begin clean-up and repairs
9. Contact utility companies for information about access to gas and electrical services
10. Photograph all damage and contact insurance company
11. Take steps to perform temporary repairs to mitigate the damage
12. Begin salvage and cleaning operations immediately

Hazardous Material Leaks and Spills

In instances where there is a spill/release of hazardous materials, evacuations will be limited to the geographic area and adequate safety zones affected by the substance. Residents will be informed of such an event by public announcements on radio and television or by the Fire or Police Department that responds to the emergency. Residents will be notified in the same manner when it is safe to return to their homes.

Service providers for residents and the community association often bring hazardous materials such as pesticides, chlorine and other chemicals into the community as they service their customers. Should a spill or release occur, witnesses should immediately contact the Fire Department and request a hazmat team to respond. Hazardous material incidents may result in contamination of air, water and/or soil. The hazmat team will clean the area as required by governmental regulations. The hazmat team will decide if and when an evacuation is necessary and make specific announcements regarding evacuation, when it is safe to return and if any special precautions need to be taken.

Hurricanes and Tropical Storms

Hurricane season is from June first (1st) through November thirtieth (30th). The National Weather Service issues hurricane and tropical storm watches and warnings. A watch means that hurricane conditions or tropical storm conditions are possible but not imminent. At the time that the National Weather Service issues a hurricane or tropical storm warning, an emergency condition should be declared. At this time, there is approximately 24-36 hours to prepare. The ERT leader has the authority to implement the Emergency Preparedness Plan.

At the beginning of hurricane season, the following should be done:

1. Identify all critical areas of the community and be sure that someone is trained on shutdown procedures and authorized to implement them.
2. Update and publish all contact information for the ERT members, civil authorities, etc.
3. Arrange for an off-site emergency communications center
4. Arrange with contractors for supplies and repairs after the storm
5. Inspect all fire protection equipment
6. Identify and consider removal of trees that could fall and cause damage to buildings, power lines, equipment, etc.
7. Plan for site security after the storm

Once a Hurricane or Tropical Storm warning has been issued, the following procedures should be implemented:

1. Locate and secure any loose furnishings or equipment that may be on the grounds. Examples include lawn furniture, trash cans, pool equipment, etc.
2. Preparation for windstorm related flooding should be implemented
3. Clean drains and catch basins
4. Shut down all non-critical and nonessential electrical equipment
5. Brace and/or anchor all outdoor signs
6. Remove all debris and relocate all nonessential equipment to a safe indoor location
7. Residents should evacuate the community as directed by Fire and Police Departments

After the storm, the ERT should act quickly to:

1. Secure the site and survey any damage that may have been done
2. Evaluate and address all safety hazards
3. Inspect for compromised electrical systems and fire protection systems and arrange repairs if necessary
4. Document damages with photos and contact insurance company

5. Contact contractors to begin repairs
6. Implement temporary repairs to mitigate damages until permanent repairs can be made

Power Failures of Extended Length

Electrical failures occur for various reasons such as grid failures, fire or accidents. Following a storm event, there may also be power failures of extended length. It is important that plenty of emergency lighting is on hand – preferably battery powered. In the event of a prolonged power outage:

1. ERT should determine the extent of the outage (one street or whole community, etc.) and notify the electrical provider
2. An alert for downed power lines
3. If the power outage affects the community's lift station, notify residents that they should not flush toilets or use water unnecessarily as this may cause potential sewer back ups
4. If the electrical provider indicates that the outage will last for an extended period, shut down electrical equipment in order to protect it from a power surge at the time the power is restored
5. In instances of extended power outages, Residents should be advised not to flush their toilets since this can cause back-up of sewage into the homes and streets.

After the power has been restored, the ERT should turn on electrical equipment and determine if there is property damage. Timers for the irrigation system and access gates may require resetting.

Tornadoes and Other Storm Events

Tornadoes and thunder storm events occur with little, if any, warning and often in conjunction with one another. After the tornado or storm event has passed, the ERT should:

1. Search for injured persons
2. Contact emergency agencies as necessary
3. Inspect property and note hazards, damage and repairs needed
4. Take photos of any damages and notify the insurance company

5. Contact vendors to implement necessary repairs

All residents of West Lake are encouraged to create an Emergency Procedures Manual for their home and should review this manual often with each occupant of the home. Suggested information that should be maintained in the homeowner's manual are:

1. General description and photos of home and contents
2. List of the home's safety features, including their location and how to operate them (i.e., fire extinguishers)
3. Building system information (i.e. location of water shut-off valves, and power shut off, etc.)
4. An up-to-date list of all vendors that might be needed for clean-up and repairs, to include contact information and services they provide
5. Insurance information and contact information for agent
6. List of any hazardous materials stored on the property
7. ERT contact information
8. Emergency contact numbers
9. Location of local emergency shelters and directions to the shelter. Location of nearest emergency shelter that accept pets. Location of nearest emergency shelter that can accommodate special needs of evacuees.
10. Map of and/or directions for evacuation routes in case of mandatory evacuation.
11. Although these guidelines were created for the ERT, most items will apply and can be adapted to a resident's Emergency Procedures Manual
